Obstacles and Resolutions?

OUR OBJECTIVE.....

"Music is a Well-Rounded Subject, which stands on Equal footing with Math, Science and Reading."

Well-Rounded Education?

In December 2015, Congress reauthorized the Elementary and Secondary Education Act (ESEA) as the Every Student Succeeds Act (ESSA). The ESSA discards the idea of "core" and "non-core" academic subjects. Instead, the focus of ESSA is on ensuring that each student is provided a "well-rounded education."

"The term 'well-rounded education' means courses, activities, and programming in subjects such as English, reading or language arts, writing, science, technology, engineering, mathematics, foreign languages, civics and government, economics, arts, history, geography, computer science, music, career and technical education, health, physical education, and any other subject, as determined by the State or local educational agency, with the purpose of providing all students access to an enriched curriculum and educational experience."

This inclusion of music instruction as an integral component of a well-rounded education is the first step to ensuring all students have access to meaningful experiences with music making during their PK-12 schooling.
